BACKGROUND

Under the umbrella of EuroNanoMed II (ERA-NET for research programmes on Nanomedicine), 16 funding organisations have agreed to launch the 4th Joint Transnational Call (JTC) for collaborative research projects in Nanomedicine. The EuroNanoMed II funding organisations particularly wish to promote innovative interdisciplinary collaboration and to encourage translational research proposals.

REGISTRATION

Research project consortia who intend to submit a transnational proposal should register at <https://www.pt-it.de/ptoutline/application/euronanomed>, clicking the “to register” button and following the directions. The system will be opened by January 14, 2013. To register, please fill in the data sheet of the system. The same data sheet can later be used for the final electronic proposal submission.

PROPOSAL SUBMISSION

Please read carefully the relevant central and national/regional eligibility and budgetary criteria (see Annexes) before starting your proposal in order to check if you fulfil the call's formal requirements.

Only transnational projects will be funded. Each proposal must involve a **minimum of three research groups** from three different countries including at least two EuroNanoMed II member states participating as funders in this joint transnational call and a **maximum of seven project partners**. The majority of research groups in a consortium and the coordinator must be from EuroNanoMed II funding countries/regions.

Electronic proposal submission is mandatory. Please use the proposal template provided on the EuroNanoMed II website (<http://www.euronanomed.net>). Please fill in all fields and submit online your proposal in a digitally signed PDF-Format file (**a scanned version of the original signature page**) fully uploading it **before March 04, 2013 at 17:00 (CET Brussels local time)**. After this time, the server will not accept proposals. Please take into account that the online data entry may be overloaded by the day of the deadline. It is therefore recommended to upload all mandatory data in proper time.

In case of inconsistency between the information registered in the submission tool and the information included in the PDF of this application form, the information registered in the submission tool shall prevail.

For applicants from some countries/regions it might be also necessary to submit the proposal and/or other information directly to the relevant national/regional funding organizations. Therefore, applicants are strongly advised to check their respective country/region funding organization eligibility and other specific information. For more

details, applicants may also get in touch with the respective funding organizations Contact Persons. For central and additional information you can contact:

PROPOSAL STRUCTURE

One joint proposal document (in English) shall be prepared by the partners of a joint transnational proposal, which must be uploaded to the online submission website (<https://www.pt-it.de/ptoutline/application/euronanomed>) by the transnational project consortium coordinator.

Please keep in mind that the template has a fixed maximum size. Thus, the proposal document cannot be longer than the number of pages indicated below (DIN-A4, Calibri 11, single-spaced). **Proposals exceeding these limitations will be rejected.**

Proposals must include the following information:

- **Family names, first names and full affiliations (by this order) of the project coordinator.**
- **Family names, first names and full affiliations (by this order) of each partner principal investigators (one per project partner) and other team members participating in the project.**
- **Duration of project**
- **Total project cost and budget to be publically funded by the EuroNanoMed II funding organizations.**
- **Clinical/public health application (yes or no)**
- **Industrial/SME application (yes or no)**
- **Diagnostics (yes or no)**
- **Targeted drug delivery (yes or no)**
- **Regenerative medicine (yes or no)**
- **Scientific abstract (max. ½ page)**
- **Keywords (5 to 7)**
- **Background and present state of the art in the research field (max. 2 pages)**
- **Timely work plan (aims, methodology, involvement of project partner team members, project coordination and management; max. 8 pages)**
- **Financial summary for each project consortium partner provided on the respective table available within the electronic application data sheet**
- **Justifications of requested and total project cost (e.g. own contribution + other sources + requested). When applicable specifying co-funding from other sources necessary for the project (max. 1 page)**

- **Added value of the proposed international collaboration (max. 1 page)**
- **Potential impact and exploitation of expected project results (max. 1 page)**
- **Present and anticipated future position with regard to IPR (e.g. any barriers to sharing materials or results), both within and outside the consortium, if applicable (max. ½ page)**
- **Description of ongoing projects, pending patents and patents when applicable of each participating project partner related to the present topic indicating funding sources and possible overlaps with proposal (max. 1 page per group)**
- **Ethical issues of the project proposal. When applicable, ethical and legal issues (e.g. informed consent, ethical permits, data protection, use of animals) according to national regulations (max. ½ page)**
- **Brief CVs for each participating project partner Principal Investigator with a list of up to five relevant publications within the last five years demonstrating the competence to carry out the project (max. 1 page each)**
- **When requested by national/regional EuroNanoMed II funding bodies, additional information must be provided to them.**
- **Project partners from EuroNanoMed II countries/regions not participating in this call and non-EuroNanoMed II countries/regions may participate in projects if they are able to secure their own funding before the recommendation of funding is taken by EuroNanoMed II Call Steering Committee (CSC). A signed statement has to be enclosed declaring in advance they will run the project with their own resources**
- **Signature of project consortium coordinator (signed PDF) on behalf of the project partners**

Please note that after submission of the proposal once the joint transnational call has been closed it is not possible to amend the proposal or to add further documents.

Applicants may ask not to refer their applications to certain reviewers, giving a reasonable ground for this. EuroNanoMed II may consider meeting this request but it is not obliged to do it (if too many experts are revoked, it might be difficult to evaluate the proposal).

PLEASE NOTE

It is mandatory to meet the deadline and observe the format of the proposal structure.

The Joint Call Secretariat will check the proposals submitted to ensure that they meet the call's formal criteria (e.g. date of submission; number of participating member states, type of project partners (academic, clinical/public health and industrial/SMEs), and inclusion of all necessary information in English). In parallel, the Joint Call Secretariat will forward the proposals to the relevant EuroNanoMed II national/regional funding organisations that will perform a formal check of compliance with their respective eligibility criteria. **Proposals not meeting the formal central and /or national/regional eligibility criteria will be rejected.** Proposals passing both checks will be forwarded to independent international scientific experts for evaluation.

Potential project consortium coordinators are recommended to read the EuroNanoMed II funding organizations' eligibility criteria when they are looking for potential project consortium partners.

Project partners are strongly advised to read the specific eligibility criteria of the relevant EuroNanoMed II funding organizations and other requirements and to contact their respective Contact Persons prior to submitting the application (see "Contact Point List" and "**Information for Applicants**" below or visit <http://www.euronanomed.net>).

Eligible institutions	Eligible institutions: - Public research institutes such as EPST, EPIC, universities, university hospitals, non-university research institutes (max. rate of support: 100% of marginal costs). - Enterprises: large & SMEs (max. rate of support: 45% of total costs for SMEs & 30% for larger companies). Special conditions of eligibility for this call: Public research institutions are eligible for funding, only if a French enterprise is also involved in the consortium.
Additional eligibility criteria	- The coordinator (if from a French institution) must belong to a public research organisation. - The ANR will avoid double funding and will not finance projects or parts of projects that have been funded through other calls.
Eligible costs	Personnel costs for temporary contracts; small equipment; consumables and animal costs; travel; and sub-contracting, if necessary to carry out the proposed activities (sub-contracting costs of max 50% of requested budget per partner). Please note that at the ANR « overheads » means « frais de gestion », and you must apply 4% if you belong to a public institution. The ANR does not have a maximum funding per grant; the amount depends on the scientific need and justification for the budget. However, there is a minimum amount per partner: 15 000 €

Eligible institutions	All companies with operational activities in Flanders can be funded.
Additional eligibility criteria	<ul style="list-style-type: none"> - It is mandatory that the Flemish companies apply at IWT at latest 14 days before the closing of the call, by means of the abstract of the project, innovation goal and valorization perspective of the Flemish partner. -A project cannot receive double public funding. -The minimal budget for the Flemish partners is 50,000.00 EUR. The maximum budget is 250.000,00. The budget for the Flemish partners should follow the IWT cost model. -The company must have a stable financial situation. Financial statements of the last 2 years should be included (in case of a start-up company, the business plan should be included as well). -The company must at all times have made reasonable efforts to comply fully with all the legal, regulatory and judiciary provisions and decisions that are or were applicable to it. -The company must have enough financial means to fund its own part of the project. -The project must be compatible with the regional program. Any kind of research supporting military purposes is not funded. -The application should contain all information needed for evaluation of the scientific technical aspects as well as the aspects related to the valorization of the research results. -The company must be registered in the Flemish region in order to receive funding. Moreover, the company must

be well established in the region.

-The project must add benefit to the regional economy. Companies should describe the added value for Flanders ("Toegevoegde waarde in Vlaanderen" - max 5 pages). This document should be part of the hard copy sent to IWT. Companies which do not create enough added value for Flanders will not be considered eligible.

-Applying companies should have complied with all contractual obligations in previously funded projects.

-The duration of the project is max 3 years.

-Large companies can be funded.

-Subcontractors can be funded.

-At the closure of the call the consortium coordinator should send the pre-proposal of the project to the international call secretary office. Latest at the same day the Flemish partner has to send the innovation goal, the valorization perspective and the accessibility statement to IWT. In case there are changes with respect to the first version a version with track changes has to be send to IWT as well.

- If authorization by an ethical commission is required for project execution in Flanders, the official approval should be send to IWT as soon as possible. In any case, for projects that have been selected for funding, the official authorization document has to be made available to IWT after the funding decision was made by the board of IWT. If not, project funding will be denied.

-Declaration (in Dutch and included in the hardcopy sent to IWT) that

o The Euronanomed-procedures and rules will prevail on IWT-procedures and rules.

o IWT can perform all due diligence to evaluate the international project.

o There are no government claims on the company and there is no double financing.

o That the given financial information is correct.

o Electronic version of the application sent to ERA-IB is identical to the hard copy of the application sent to IWT.
